

WADERS SIZE

Take your waist and hip measurements. Choose the largest girth. Measure the inseam from crotch to ankle. If you are looking for ATV waders, add from 0.8 to 1.2 inches / from 2 to 3 centimeters to your inseam measurement. Match the measurements to the size chart.

* When measuring the hip girth, place a tape measure around your body at the top of your hip bone. This is usually at the level of your belly button.

size (cm) ▾	XXS	XS	S	M	L
Height (cm)	155-160	160-165	165-170	170-175	175-180
Waist/Hips (cm)	86-90	90-94	94-98	98-102	102-106
Inseam (cm)	69-75	72-78	75-81	78-84	81-87

WADING AND RUBBER BOOTS SIZE

Place your foot on a blank sheet of paper. Mark the outer edges of the foot with a pencil or pen. Measure the length from the heel to the tip of the longest toe. Match the measurement to the size chart. If you wear neoprene or double layer thermal socks, add 0.20 inches / 0,5 centimeters.
