

Model 9108C

Model 9304C

## CAMSO

# Intense

Purely driven by snow

Featuring a 1.5" lug height for on/off-trail riders, this long-time favorite has a proven record of performance and durability. Excellent performer in all types of snow conditions.

- Saw-tooth-tipped lugs provide excellent handling, acceleration, and braking on packed trails
- V-shaped and full lugs for excellent traction in soft, loose snow

## CAMSO

# RipSaw II 1.5

All-around on- and off-trail performer

The RipSaw II, known for its versatility in all snow types, is taken to another level. Now boasting a 1.5-inch lug height, it's the track for the most demanding 50/50 rider.

- Sharp angled lugs provide excellent bite on hard-pack snow
- Cupped center and full outer lugs provide traction on loose, less compacted snow
- Tapered outside lug edges offer less side bite when cornering
